FACULTY

TODD FALCONE, MD

Dr. Falcone is a graduate of the University of Connecticut School of Medicine. He completed his Otolaryngology – Head & Neck Surgery residency at the Boston University School of Medicine at Boston Medical Center where he was the recipient of the Jalisi Teaching Award. He joined the UConn faculty as an Assistant Professor in 2014 where he practices general otolaryngology. He is the Associate Program Director of the otolaryngology residency program and serves as the Director of the John Dempsey Hospital Laser Committee and serves on the UConn SOM Alumni Advisory Board. He is also a Member-at-Large of the CT ENT Executive Council and a member of the AAO-HNS History and Archives and Alternative Medicine Committees.

BRIAN GROSBERG, MD

Dr. Grosberg is the Director of the Hartford Healthcare Headache Program in Connecticut. Prior to this, he was Co-Director of the Montefiore Headache Center and Program Director of the Headache and Facial Pain Fellowship at the Montefiore Headache Center. He is also a Visiting Associate Professor of Neurology at the Albert Einstein College of Medicine in New York. Dr. Grosberg earned his medical degree at the SUNY Health Science Center at Syracuse. He completed a medical internship at Maimonides Medical Center in New York and his neurology residency and headache and facial pain fellowship at the Montefiore Headache Center and the Albert Einstein College of Medicine. He is board-certified in neurology by the American Board of Psychiatry and Neurology and board-certified in Headache Medicine by the United Council for Neurologic Subspecialties. Dr. Grosberg has been the recipient of several prestigious awards for his work, including the Clinical Headache Fellowship Award from the American Headache Society and the Members Choice Award for the Best Paper Published in Headache in 2014. While Dr. Grosberg has extensive experience with clinical trials research, another primary academic area of interest is headache-related education. Accordingly, he has either authored or co-authored more than 100 peer-reviewed publications, invited reviews, textbooks, book chapters and abstracts. A respected colleague and sought-after lecturer, Dr. Grosberg has delivered more than 150 invited lectures locally, nationally and internationally. Over more than a decade, Dr. Grosberg has trained many future physician leaders in the field of headache medicine. He has particular interests in the clinical aspects of headache, including diagnosis, classification and definition of unusual headache syndromes, such as retinal migraine, new daily persistent headache, cluster headache and nummular headache. Dr. Grosberg is a member of the American Headache Society, the International Headache Society, the American Council of Headache Education and the American Academy of Neurology. He serves on the American Headache Society special interest sections for peripheral nerve blocks and other interventional procedures for headache and facial pain, academic affairs, headache classification, inpatient headache and women's issues. He is also an invited reviewer for the journals Cephalalgia, Headache Currents and Headache. Visit the HHC Neurosciences Institute: <https://hartfordhealthcare.org/services/neurosciences>

MATT KOZLOSKI, KELSER COMPANY, Vice President, Professional Services

Lots of tech companies talk about being partners with their clients. Matt's vision for Kelser? That our clients will be downright excited when we arrive on the scene, not just because they enjoy working with us, but because they understand the impact we can have on their business. As Vice President of Professional Services, Matt encourages his team to think of themselves as consulting engineers, not just engineers. "There's a part to consulting that's art and can't be exactly taught or explained. It's empathizing with a customer's situation, being responsive and responsible, and maintaining integrity along the way." With every engagement, Matt pushes us all to think of what tangible business outcome our work will provide for our clients, and for their clients. Matt is a CISSP, VCDX certified professional.

CASEY KUWADA, MD

Dr. Kuwada is a board certified Otolaryngologist, specializing in head and neck surgery and microvascular reconstructive surgery. He earned his medical degree at the University of Connecticut School of Medicine where he then completed his residency in otolaryngology/head and neck surgery. He completed a fellowship in head and neck oncologic surgery and microvascular reconstruction at Vanderbilt University Medical Center. He was the recipient of the David Hull Young Practitioner Award at Hartford Hospital.

Dr. Kuwada is director of the head & neck cancer multidisciplinary team at the Helen and Harry Gray Cancer Center at Hartford Hospital. He is assistant clinical professor at the University of Connecticut Residency Program. His clinical focus is surgical treatment of benign and malignant tumors of the head and neck, including the thyroid and parathyroid glands. He is well trained in open and endoscopic techniques, including transoral robotic surgery (TORS). He performs microvascular free tissue transfers for head and neck reconstruction.

CHRISTOPHER RANDOLPH, MD

KELLY GILBERT RASKAUSKAS, MPP

Kelly Gilbert Raskauskas is the Vice President of Communications for the Connecticut State Medical Society (CSMS). She also serves as the CSMS representative to the Connecticut Immunization Coalition and the Connecticut Department of Public Health Preparedness Advisory Committee. Prior to CSMS, Ms. Raskauskas oversaw member and provider communications for a multistate Medicaid managed care organization. She also worked as a communications consultant specializing in non-profits, and served as press secretary for municipal, county and Congressional political campaigns.

Ms. Raskauskas holds a Master's degree in Public Policy from Harvard's Kennedy School of Government, and is a Fellow of the AHIP Academy for Healthcare Management (FAHM).

NWANMEGHA YOUNG, MD

Dr. Young is an Assistant Professor of Surgery at the Yale School of Medicine. He has clinical expertise in the medical and surgical treatment of voice disorders, including care of the performing voice. Dr. Young is an expert in the diagnosis of neurologic disorders of the larynx and treatment with botulinum. He attended Medical School at the University of California-Davis and completed residency at Barnes-Jewish Hospital in St. Louis, MO. Dr. Young then completed fellowship in Laryngology/Neurology at St. Lukes/Roosevelt Hospital. Dr. Young is recognized as a Top Doctor in both Castle Connolly and New York Magazine. He currently serves as the Program Site Director at the West Haven VA and Medical Director of Speech Language Pathology at Yale New Haven Hospital.
